**ALSO PROVIDER**

An educational program designed to enhance cognitive and procedural skills of maternity health care providers including physicians, nurses, and certified nurse midwives to help them manage obstetrical emergencies.

**Register Online**  
**[www.alaskaafp.org](http://www.alaskaafp.org)**

**OVERALL COURSE OBJECTIVES**

- \* Discuss ways of improving the management of obstetrical urgencies and emergencies which may help standardize the skills of practicing maternity care providers.
- \* Discuss the importance of utilizing regional maternity care services and identify possible barriers which might limit access.
- \* Successfully complete the course written test and megadelivery testing station.

**ACCREDITATION**

This program has been reviewed and is acceptable for up to 14.5 Prescribed credit hours by the AAFP. This program for 17.4 contact hours has been approved by the Missouri Nurses Association which is accredited as a provider of continuing education in nursing by American Nurses Credentialing Center's Commission on Accreditation.

**COURSE DISCLAIMER**

The material presented in the ALSO course is being made available by the American Academy of Family Physicians for educational purposes only. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty which may be helpful to others who face similar situations.

The AAFP disclaims any and all liability for injury, or other damages, resulting to any individual attending this course and for all claims which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by physician, or any other person.

Every effort has been made to assure the accuracy of the data presented at this course. Physicians should check specific details, such as drug doses and contraindications, etc., in standard sources prior to clinical application.
